

Exercise 8 - Part 1 Output

Yuwen Sang

Hello - starting pythonConnector_ex2.py

<mysql.connector.connection_cext.CMySQLConnection object at 0x000002C42BEEF8E0>

Printing out reserve info at start...

How many reservations now:

(952,)

Now use fetchall()

Use fetchall() to get all at once

find out the sailors that older than 20 and delete their reservations:

delete from reserve where sid = 1 ;
